1. IMPORTANT INFORMATION

IMPORTANT: The online platform corresponds to an adaptation of the French National Research Agency (ANR) electronic submission tool. In accordance, you will find certain fields that are blocked (or could not be removed) because they are solely focused on French Applicants. As these fields are considered irrelevant to this Call, please disregard these aspects when filling in the data of your proposal. Please follow this Electronic Submission System Handobook, in order to make sure you do not miss any important information you should provide.

NOTE: You can choose the language of your screen (French or English) by clicking on the flag at the top of the screen (right side).

Consortium Composition

For each project, a coordinator is appointed. Each project Partner appoints ONE scientific and technical representative for his/her team (the Principal Investigator - PI -). The coordinator will create the proposal in the submission platform and add the project Partners. Once that is done, Partners will receive an invitation mail to connect to the platform. They will be able to check the information provided by the coordinator and modify their administrative and financial data if necessary.

Each modified page in the submission platform must be saved before going to another page.
