

## Nexus Water-Energy-Food-Ecosystems approach: An adaptation Strategy to cope with climate change

**DATE:** Tuesday (21 June 2022)

**TIME:** 1pm to 2pm: 30 CET  
(GMT +2)

**[REGISTER NOW!](#)**

This is the 1<sup>th</sup> Webinar organized by PRIMA after the training on Nexus Water-Energy-Food-Ecosystems (WEFE) organized in December 2021 which gathered 1400 participants. The webinar will address the role of Nexus WEFE as a tool to cope with climate change (adaptation and mitigation). Implementation of Nexus WEFE will avoid maladaptation generally performed at the sectoral and project-based activities without adequate consideration or coordination of cross-sectoral interactions among key climate-sensitive sectors

The presentations and discussion will be based on concrete examples as well hand-on experiences implementing Nexus in African countries. The webinar will also be an opportunity for participants to discuss challenges and opportunities to operationalize the WEF Nexus.

### WEBINAR AGENDA

Time	Content	Speaker
1:00-1:15	Opening Remarks	Octavi Quintana, <i>Director PRIMA</i> Michael Jacobson, <i>Pennsylvania State University</i>
