Challenge
Small scale farming systems are the backbone of the Mediterranean farming system with an overwhelming contribution to the global food supply. However, many of the rural economies and smallholder farmers communities are struggling to sustain production, as low incomes, unsustainable and inefficient practices, lack of market connections and limited access to information are affecting their livelihood. Fragmentation of the markets, inefficient farming practices, older age group of farmers, the disconnection between youth and their interest in agriculture are enhancing land abandonment and degradation, output quality and productivity, transparent and efficient access to markets (especially new markets based on e-commerce) and lack of valorisation of waste generated at farming level. Many organisational aspects made to support farmers, that was brought in the 20th Century, did not evolve to meet the current market demands, including the current models of cooperatives and associations that need uplifting. There is a significant need to have proper governance, less corruption, improved market intelligence, the introduction of innovative approaches in sustainable practices, market development, investment and

**Abstract:**

Short summary to clearly explain:

- the objectives of the proposal
- how they will be achieved
- their relevance to the specific call and topic against which the proposal is submitted

Will be used as the short description of the proposal in the evaluation process and in communications with the programme management committees and other interested parties.

- Do not include any confidential information.
- Use plain typed text, avoiding formulae and other special characters.

Questions to be answered by the coordinator:

- Project submitted in previous EU calls?
- Verification of the financial capacity (only for private entities)
- Total budget requested to PRIMA (on the submission website each partner must give the total cost of the project and the requested amount to PRIMA)
- Etc....
1. Excellence
   1.1 Objectives
   1.2 Relation to call and/or topic
   1.3 Concept and methodology
      (a) Concept
      (b) Methodology
   1.4 Ambition

2. Impact
   2.1 Expected impacts
   2.2 Measures to maximise impact
      a) Dissemination and exploitation of results
      b) Communication activities

3 Implementation
   3.1 Work plan — Work packages, deliverables
   3.2 Management structure, milestones and procedures
   3.3 Consortium as a whole
   3.4 Resources to be committed

4: Members of the consortium
   4.1. Participants (applicants)
   4.2. Third parties involved in the project (including use of third party resources)

Section 5: Ethics and Security
Evaluation process

Each proposal is evaluated by 3 independent experts and ranked by consensus by the evaluation panel during a meeting.
Evaluation Criteria

**H2020 CRITERIA:**
- EXCELLENCE / 5 points
- IMPACT / 5 points
- QUALITY AND EFFICIENTY OF THE IMPLEMENTATION (Only for step 2) / 5 points

*For IA the criteria “impact” has a weight of 1.5*

**Thresholds:**
Step 1: 4 points for each criteria
Step 2: 3 points for each criteria
and at least 10/15 in total
### Evaluation Criteria

<table>
<thead>
<tr>
<th>Excellence</th>
<th>Impact</th>
<th>Quality &amp; Efficiency of the implementation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clarity and pertinence of the objectives;</td>
<td>The extent to which the outputs of the project would contribute to one or several of the <strong>expected impacts mentioned</strong> in this document under the relevant topic.</td>
<td>Quality and effectiveness of the work plan, including extent to which the resources assigned to work packages are in line with their objectives and deliverables;</td>
</tr>
<tr>
<td>Soundness of the concept, and credibility of the proposed methodology;</td>
<td>Scores of the proposals will not depend on the number of expected impacts covered. Any substantial impacts, <strong>even if not mentioned</strong> in this document, that would enhance innovation capacity, create <strong>new market</strong> opportunities, strengthen <strong>competitiveness</strong> and growth of companies, address issues related to <strong>climate change</strong> or the <strong>environment</strong>, or bring other important benefits for <strong>society</strong>;</td>
<td>Appropriateness of the management structures and procedures, including <strong>risk and innovation management</strong>;</td>
</tr>
<tr>
<td>Fit with the scope and objectives of the PRIMA programme and the call topic description; Extent that the proposed work is beyond the state of the art, and demonstrates innovation potential (e.g. ground-breaking objectives, novel concepts and approaches, new products, services or business and organizational models)</td>
<td>Quality of the proposed measures to:</td>
<td><strong>Complementarity of the participants</strong> and extent to which the consortium as whole brings together the necessary expertise;</td>
</tr>
<tr>
<td>Appropriate consideration of interdisciplinary approaches and, where relevant, use of stakeholder knowledge and gender dimension in research and innovation content.</td>
<td>• <strong>Exploit</strong> and disseminate the project results (including management of IPR), and to manage research data where relevant. • <strong>Communicate</strong> the project activities to different target audiences.</td>
<td>Appropriateness of the <strong>allocation of tasks</strong>, ensuring that <strong>all participants have a valid role and adequate resources</strong> in the project to fulfil that role.</td>
</tr>
