PRIMA
INFO DAY
2025

Made with Napkin

Expected outcomes: Achieve wetlands and farming systems integration and co-existence

Resilience Improvement

Safeguarding ecosystem services for flood and drought control while supporting food production and socio-economic development.

Agrobiodiversity Promotion

Promoting innovative practices that support agrobiodiversity within wetland agroecosystems.

Greenhouse Gas Mitigation

Assessing and mitigating greenhouse gas emissions and enhancing carbon sequestration.

Policy Recommendations

Providing evidence-based recommendations for sustainable management and conservation.

scope

#PRIMAInfoDay
www.prima-med.org

PRIMA
INFO DAY
2025

Socio-economic
Evaluation

Assessing costs and benefits of the solutions for improving adoption by farmers and stakeholders

Policy
Translation

Developing policies to support wetland and agriculture integration

Sustainable
Agriculture
Integration

Integrating eco friendly farming practices with habitat restoration. Valorising ecosystem services

Minimizing
Trade-offs

Balancing wetland conservation/restoration with agricultural needs. Using WEF(E) Nexus approach

Carbon
Mitigation
Assessment

Evaluating wetlands' potential for carbon sequestration with appropriate Indicators

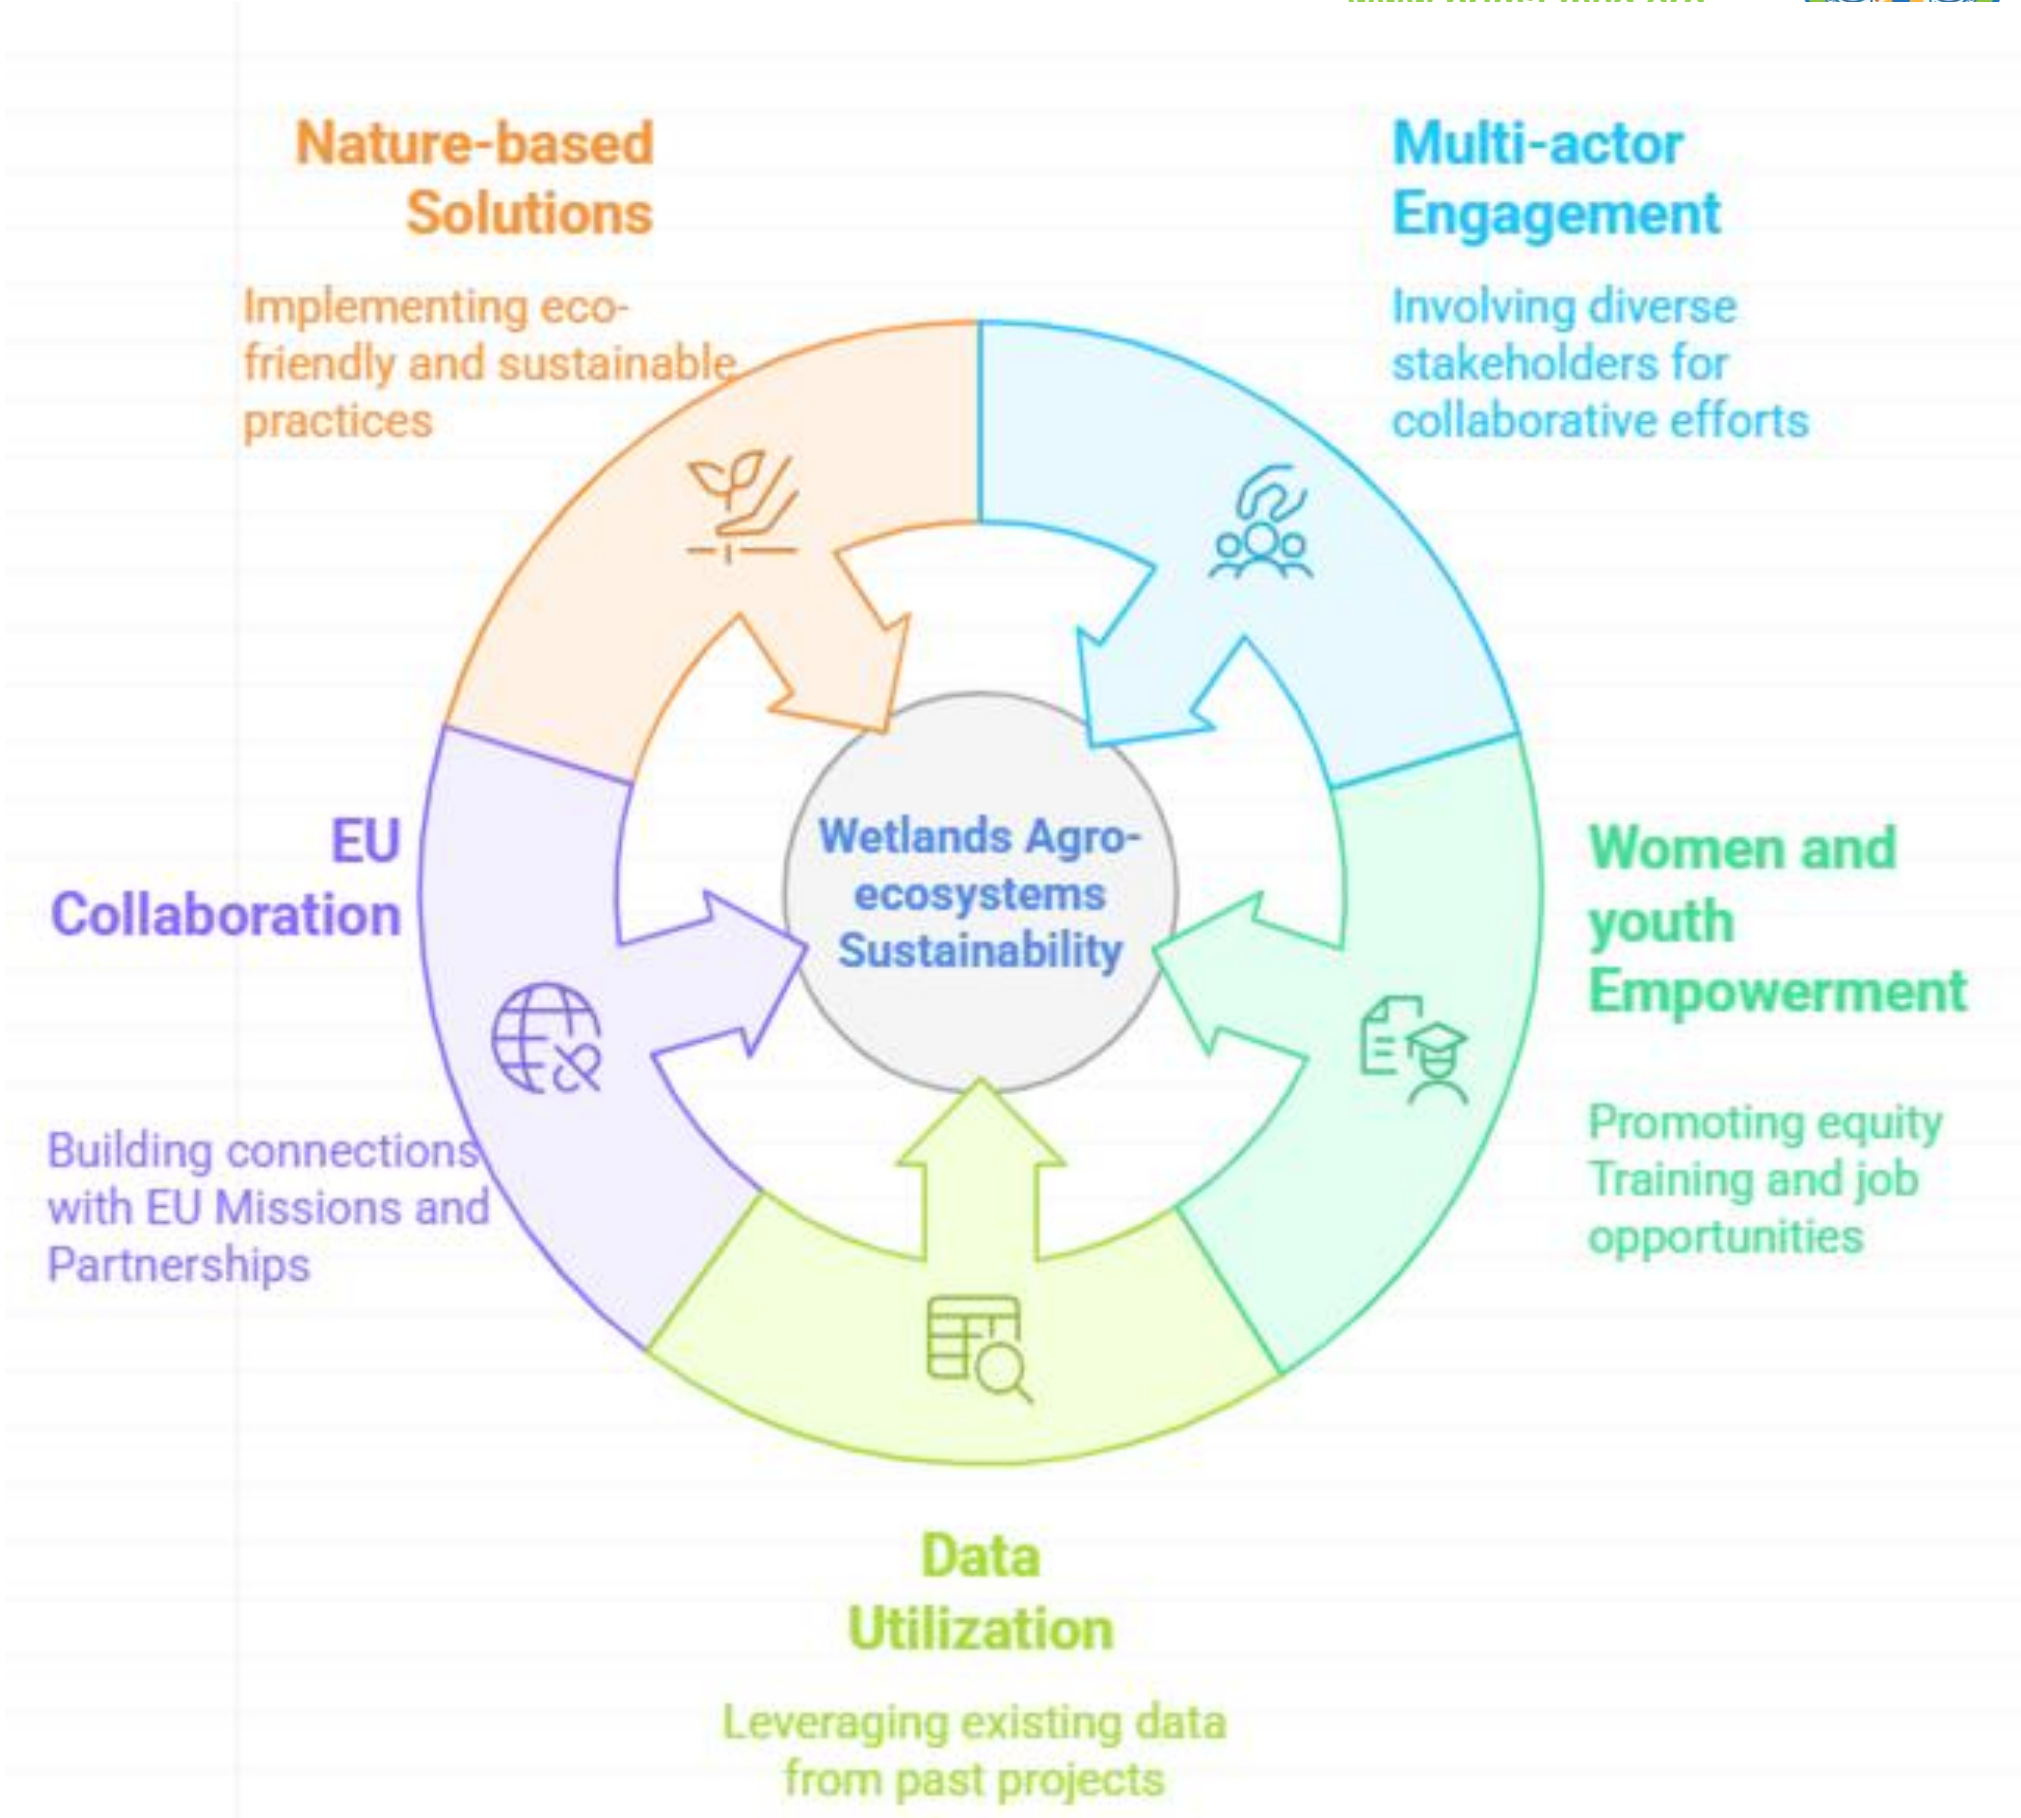

Approach
